THE OFFICIAL MAP OF NEW YORK STATE

Size 4 x 3 ft.

No other map maker ever even attempted to construct a map of New York State showing ALL highways on one sheet. It was only by making the original drawing very much larger than the finished map, and then reducing it photographically, that we could do this. PRINTED IN FIVE COLORS.

In spite of the large amount of detail shown, the entire map is clear and legible throughout. Five classes of roads are distinguished—"trails," "local roads," "main roads," "improved connecting roads" and "state roads." State roads actually constructed are shown in red.

THE OFFICIAL MAP OF MAINE

Size 3 x 4 ft.

The most accurate map of Maine ever published. Shows location of licensed hunting camps and State fire look-out stations in addition to the regular details shown on all our "Official" maps, as listed on the preceding page.

Besides the four regular forms The Official Map of Maine is also published in sectionized or book form, which includes the White Mountain region of New Hampshire. Size of book form 5 x 9 inches.

The pages for Maine in this book were taken from the above map. The big map has an additional color plate emphasizing township, county and state boundary lines.

THE OFFICIAL MAP OF VERMONT AND NEW HAMPSHIRE

Size 3 x 4 ft.

Two maps for the price of one.

It is not often that two states group themselves as do Vermont and New Hampshire. Not only the shape of the states lead to this grouping, but their mutual business and industrial relations. The highways and railroads following the Connecticut River, cross and recross the state boundary many times. If you need a map of one state you need the other as well. So we put them both on one sheet.

The pages for Vermont and New Hampshire in this book were sectionized from the above map. The big map is on a somewhat larger scale than these pages.

THE OFFICIAL MAP OF SOUTHERN NEW ENGLAND

Comprising Massachusetts, Connecticut and Rhode Island

Size 4 x 3 ft.

The original drawing for this map was 24 ft. x 18 ft. in size, and this was reduced photographically to the present scale. With so great a reduction it is possible to show the most congested portion of New England with clearness and accuracy. With the exception of city streets all highways are shown, the State Roads being plainly indicated in red.

The pages for Southern New England in this book were taken from the above map. The big map has an additional color plate emphasizing township, county and state boundary lines.

The Official Map of the United States

Size 52 x 33 inches

A FEW OF THE THINGS THAT ARE SHOWN

Every Railroad in the United States. Data is up-to-date and thoroughly checked for absolute accuracy.

Strategic Railroads. These represent the principal lines of traffic, and are designated in heavier lines than unimportant railroads.

Interstate Highways are shown in sharp red lines. The famous Lincoln Highway is especially designated. This is the only general map of the United States showing the great arteries of automobile travel.

Places of 500 people or over are shown except in the congested districts of the North and East, making the map unusually complete. It is, however, clear and legible throughout.

Commercial Centers are shown in larger circles, according to importance. Forts and Coast Defences as well as the location of navy yards, etc., are shown in red.

National Forests are tinted in green.

National Parks are tinted in purple.

Indian Reserves are tinted in yellow.

Bird Reserves are outlined in purple.

State Lines are tinted in pink.

Water tinted a transparent blue.

INDEXED on the face of the sheet, with population.

This map, although moderate in size, is complete in detail, absolutely accurate, of splendid workmanship, and beautifully colored, presenting a very refined appearance.
